

But Pell grants have failed to keep up with the times. When it was created, the Pell grant covered more than 75 percent of the average cost of attendance at a 4-year public college. Today, Pell grants cover less than 30 percent of these expenses. This means that students are forced to take on student loans, exacerbating the student loan debt crisis. Forty-five million Americans owe \$1.7 trillion in student loan debt, which is second only to mortgages as the largest category of consumer debt.

Doubling the Pell grant would be an investment in our Nation's future and would help ensure students can access higher education. At the same time, the for-profit college industry—an industry with a track record of preying on low-income students—must continue to be held accountable so students and taxpayers are not being ripped off. The for-profit college industry enrolls only 8 percent of all post-secondary students in America, but accounts for 30 percent of all Federal student loan defaults. Too often, students and taxpayers are left holding the bag.

As we celebrate the 50th anniversary of Pell grants, I urge my colleagues to support low-income students by increasing these grants to cover a greater amount of college expenses and ensuring the most vulnerable students are protected from fraudulent for-profit colleges.

BUDGETARY REVISIONS

Mr. SANDERS. Mr. President, S. Con. Res. 14, the fiscal year 2022 congressional budget resolution, included a reserve fund in section 3003 to allow the chairman of the Committee on the Budget to revise budget aggregates and committee allocations for legislation that would not increase the deficit over the period of fiscal years 2022 to 2031.

The Senate will soon consider S. 2938, the Bipartisan Safer Communities Act, as proposed to be amended by Senate Amendment No. 5099, which meets the condition of not increasing the deficit over the relevant 10-year period. As such, I am filing a revision to the aggregates and committee allocations under the budget resolution, which were last revised on April 7, as well as the Senate pay-as-you-go scorecard. Specifically, the Congressional Budget Office estimates that Division A of the bill would increase 2022 budget authority by \$7.5 billion and increase 2022 outlays by \$1 million but decrease spending over the 5- and 10-year windows. Over the 2022–2026 period, the bill would decrease spending by \$5.7 billion and increase revenues by \$4 million. Over the 2022–2031 period, the bill would decrease spending by \$5.3 billion and increase revenue by \$10 million. Division B of the bill appropriates additional discretionary spending, but that spending is designated as an emergency and not subject to budget enforcement.

I ask unanimous consent that the accompanying tables, which provide de-

tails about the adjustment, be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:
